

Never be the same

First we heard of a virus
From Wuhan is where it came
They called it Covid-19! Now that's a strange name
Our World would never be the same

It spread across Europe to Italy and Spain
Soon it would reach England
Oh no! That is going to be a pain
Our World would never be the same

Now it's in England
This really is a pain
Lockdown had started, oh dear! what a shame
Our World would never be the same

It made me feel scared and anxious
What if someone I knew got sick?
Surely a vaccine? That would do the trick
Our World would never be the same

It cancelled my 10th birthday, would it ever be the same?
Now I'm certain this was not a game
Now I am sad, would I ever have one again?
Our World would never be the same

Allowed out once a day, to Wellington Rocks I did go
There I met a boy, was he a friend or foe?
His name is James and friends we became
Our World would never be the same

On holiday I went to see my Nana
What a lovely few days with Dad
I saw my friends Daniel and Elliott, lots of fun we had
Our World would never be the same

Lockdown was over, back to school I went
This made me feel happy, perhaps this was the end
Returning to normal, we were together again
Our World would never be the same

Then came the second wave
Oh no! Lockdown has hit again
Back to home learning
Would our World ever be the same ?
