Topic: St James': Our Journey		
This week's learning: <ul style="list-style-type: none">• Maths: We have been looking for number patterns as well as learning to estimate answers and check addition and subtraction calculations using the inverse operation.• English: We have been using adverbs to make our writing more interesting. We have also been writing recounts about our Victorian Day.• Wider curriculum: We have had a very exciting week as we all returned to the Victorian era on Wednesday. We learned what life may have been like in a Victorian classroom. In the afternoon we worked with the Year 6 children to create some Victorian inspired artwork.		
Next week's learning: <p>Maths: We will be focusing on multiplication and division starting with the 2, 5 10 and 3, times tables.</p> <p>English: We will be learning about Biographies and Autobiographies.</p> <p>Wider curriculum: We will be learning about family trees in our topic work. In Science we will be investigating solar power.</p>
