# A Treasure Map for Toad!

We are going to play a trick on Mr Toad and make a treasure map for him to follow. On the map below can you put these different places in the correct square on the map? This week we have changed how we write the coordinates. They are still the same, along the corridor and up the stairs, but now are separated by a comma and have brackets around them.

In the blank box next to each place, can you draw the symbol you used to help other people read your map. Try to keep your symbols as simple as possible. Think about what shapes you could use. We've used a red X for the treasure. For example, you could use a triangle and cross for a windmill, a semi-circle for the bridge and a blue circle the lake. Put in your own coordinates for the Treasure.

	Lighthouse (A,2)		Forest (D,3)
	Village (H,2)		Lake (G,4)
	Bridge (F,5)		Windmill (J,2)
	Caves (B,3)		Castle (J,6)
	Swamp (C,6)		TREASURE!! (____,____)
