

Contact Letter	Date: 12th October	Year Group: 6
Topic: Spread Your Wings		
Next week's learning:		
<p>Maths: We will consolidate formal written methods for the four operations and use these to solve multi-step problems.</p>		
<p>English: We will finish our work on Skellig by reading to the end of the book and creating our own prequel chapter for the book. We will also write a letter in role as Michael, considering the range of emotions he is feeling about his sister's illness.</p>		
<p>Wider curriculum: We will continue our work on Amelia Earhart. We will look at a range of evidence and draw our own conclusions as to what happened to her in the end. We will write from Amelia's point of view and explain what really happened to us.</p>
