

Monday 6th July 2020

Good morning,

Unbelievably, we are now into the last few weeks of the summer term at St James. We are expecting that children are feeling tired and are ready to slow down a bit, so please take the learning at your own chosen pace. By this point in the year, it is nice to focus on some fun activities – don't miss the opportunity to enter the whole school art competition which launched on Friday!

For Year 6, it's nearly the end of your time at the school, so it's time for us all to reflect on experiences at St James.

English

LO: Write paragraphs about why you love St James

As you know, we will be creating a montage of each class' impressions and memories from their time at the school. In preparation for filming, we have dedicated time in today's English lesson for children to write a few paragraphs to describe what they have loved about being a pupil at St James.

Maths:

LO: Lesson 1 – Vertically opposite angles

Watch the video, complete the worksheet and mark your work, making any corrections along the way

On this week's learning grid, you will find a variety of activities for you to explore. How about designing your own Marvel style superhero (male or female) – think carefully about what their super power would be. Every superhero needs a strong identity, so coming up with a bright and bold costume is essential. The logo design is especially key to the superhero identity.

Another fun activity is to get tie dyeing. There are different effects that you can create, so perhaps you could have a few practises before deciding on a final design.

Whatever you choose to do, we hope that you have an enjoyable week. Good luck if you're filming the clips for the leaver's video. We can't wait to see what you produce.

Best wishes,
The Year 6 Team
