

Contact Letter	Date: WB 19th October	Year Group: 5
Next week's learning: Maths: We will be starting our new unit on Statistics and revisiting interpreting data from Year 4. The children will then be applying this knowledge into work with data and line graphs. English: This week we will be looking at the features of formal and informal letters and will be writing a letter to a relative. With this in mind please help your child think of someone they could write to. Wider curriculum: We will continue to explore the Ancient Egyptians, looking at the Nile and how it was a gift to many. We will be transcribing our pencil drawn cartouches using watercolours on papyrus. Additional Information: Please can you make sure that your child is familiar with reading an analogue clock and knows the hours on a 24 hour digital clock. We will be using this to help us read timetables in Math's next term.
