

Accessibility Audit and Plan 2019

Area	Provision in place	Need
Car Park and Footpath	There is a disabled parking bay in the car park at the Infant end, adjacent to low level kerb. There is also a bay next to the bins between the two schools. The footpath from the main entrance leads to a crossing through the car park giving access to the school. The infant path has been resurfaced.	
Doors and door controls	The front doors and doors to the offices are fully compliant for disabled access. The rear doors are compliant width.	
Signage	The infant and junior school and offices are signposted from the pathway.	
Finishes and decorations	The main hall floors are finished with a non-glare finish.	
Steps	All steps have yellow edging and handrails.	Ensure step edges are maintained.
Disabled toilets	Disabled toilets are available in the new and old buildings.	
Communications, alarms and security systems	Alarms installed in disabled toilets.	Pull cord alarms to be tested. Website which is DDA compliant.
Ramps, lifts and ramp systems	The main entrances are approached by a ramp. There is a lift to the upper level at the junior school.	
Handrails and hardware	All handrails are warm touch. External handrails are dual height.	Consider whether all hand rails need dual height.
Lighting and acoustics	Emergency lighting in place.	
Furniture and equipment	Suitable furniture provided for individual children e.g. chair with arms, screens for work stations. Seats in waiting area have arms for ease of use and are in contrasting colour for visibility.	
Emergency access routes	Emergency evacuation procedures for fire include reference to evacuation of children with 1:1 support.	Ensure personal evacuation plans are updated as necessary.
Toileting and changing facilities	Two toilets for disabled users are available at the juniors & two at the infants. There is a changing area/care suite including shower in the infant school.	

Curriculum Access

Area	Provision in place	Need
